

case study

Dundalk Retail Park Marshes Upper, Dundalk, Co. Louth

Featured Products: **Stone Mastic Asphalt (SMA) and Road Lining**

Dundalk retail park is a modern, high-profile retail park situated on the inner relief road, approximately 3km from Dundalk Town Centre. With over 15 retailers on site, the retail Park caters for all.

For this project, we supplied our stone Mastic Asphalt (SMA) throughout the entire retail park. SMA is a gap-graded mix laid between 30mm and 40mm thickness. Offering superior durability and resistance to deformation, SMA was the perfect mix for this high-profile retail park.

Road Surfacing:

Stone Mastic Asphalt (SMA)

Road Lining
