case study

Adjacent to Hansfield Train Station and a brief walk from Ongar Village, Barnwell Point lies just south of the M3 Motorway, with easy access to the M50 Motorway via the Blanchardstown interchange. In this project, we supplied our modern Newgrange Silver Granite Flags (400mm x 400mm x 40mm), Newgrange Block Silver Granite (240 x 160 x 80) with a refined textured granite finish, offering a selection of colours and sizes preferred by those seeking a sophisticated and contemporary aesthetic. Additionally, Clima Pave Newgrange Black Granite (3 Size Mix) was utilised, harnessing the benefits of permeable paving blocks for enhanced durability. Our Tara Kerb Silver Granite (915 x 125 x 250) & Tactile Paving Blister Buff (400 x 400 x 50) were integral components of the project. These materials were also supplemented in various areas with Pembroke Block Black Granite (5 Size Mix) & Pembroke Block Silver Granite (5 Size Mix). For the external walls, we applied Kilsaran External Wall Insulation (KEWI) in white, complemented by the use of M4 Masonry Mortar.
