Kilsaran
Electronic Ticketing

Kilsaran have introduced an Electronic Ticketing system for our Ready-Mixed Concrete, Blocks, Aggregates and Asphalt products. All our drivers now have mobile devices to allow delivery tickets to be viewed and record e-signatures.

How will this affect you?

All deliveries to your sites will now be verified upon arrival and signed for post-offloading on the driver's mobile device. Before signing, any additions, returns, and waiting time will be agreed upon with the driver according to standard procedures.

Benefits of E-Ticketing

Improved Efficiency: E-Tickets will streamline and speed up the process of deliveries along with providing instant records to customers.

Customer Portal & App: Customers will have a single source of access for all delivery tickets via the Customer Portal and Mobile App. Once the E-Ticket is signed it will be uploaded instantly and available on the portal. You will be able to view and print any delivery tickets for verification.

Delivery Tracking: From our Mobile App, your team can track their deliveries live, saving valuable time for site representatives, who can see instantly how their deliveries are progressing.

Paperless: Kilsaran are endeavouring to reduce the amount of paper consumed and E-Tickets will help reach this goal and reduce our carbon footprint.

Access: Please contact your accounts department for user login details or project access setup.

New customer setup or password reset can be requested from:
**debtors@kilsaran.ie**

How to use the
Customer Portal

The Portal can be launched from our home page **www.kilsaran.ie** or via the following link: **https://customerweb.kilsaran.ie/SimmaApp**
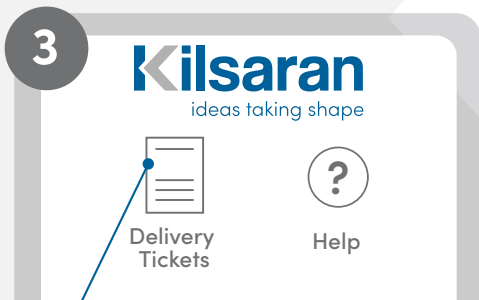

New customer setup: **debtors@kilsaran.ie**

Mobile App, **CMS Mobile** can be downloaded from the App Store for Apple devices or Google Play for Android devices.
